

Amendments to the Specification

Please replace the paragraph entitled ABSTRACT OF THE DISCLOSURE at page 125, with the following rewritten paragraph:

The present invention provides a ~~digital backplane and~~ various methods, systems and devices for controlling a ~~digital backplane and~~ light modulating elements and/or spatial light modulators. In some embodiments of the present invention, a recursive feedback method is used to control a ~~digital backplane and/or~~ light modulating elements and/or spatial light modulators.
